

JAXIAN

APARTMENT LIVING, EFFORTLESSLY.

SMART PARCEL LOCKERS FOR APARTMENT BUILDINGS

A clear foyer. Every delivery secure.

Couriers leave parcels safely. Residents receive a WhatsApp pickup link. Building managers get their foyer back.

No missed handover. No parcels left at reception.

From courier to resident - automatically.

The delivery is secured, the resident is notified, and the locker resets itself after collection.

01

DELIVER

The courier selects the apartment and parcel size.

02

SECURE

The right-sized locker opens automatically.

03

NOTIFY

A secure pickup link arrives through WhatsApp.

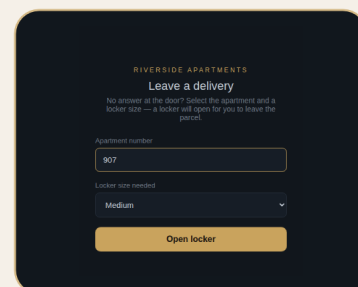

04

COLLECT

One tap opens the locker; it resets when closed.

Made for the building. Simple for everyone.

- ✓ Australian-made 18mm timber cabinetry
- ✓ Small, medium and large locker doors
- ✓ Real-time status and remote manager override
- ✓ Works with the JAXIAN intercom and resident portal

START WITH THE PROBLEM YOUR BUILDING NEEDS SOLVED.

Let's clear the foyer.

Talk to us about your building, delivery volumes and foyer layout. We'll recommend a locker configuration that fits.
